THE HONEST PROPRIETARY MEDICINES

fills a national need in the land and it will take more than the cry of "fraud" and "fake" from this avaricious, over-reaching physician to overthrow an honest, reliable and standard preparation like Lydia E. Pinkham's Vegetable Compound, which is made from the roots and herbs of the field, and has cured more women of female ills than any other remedy we know of.

QUIET DAY  
(Continued from Page 1)

Heve he has only one string to his bow.

One of the new schemes being talked now is the cutting up of Pioneer stock into twenty dollar shares. This has not been passed upon by the Board of Directors and there is nothing to indicate that the agents of the plantation are favorable. The brokers, of course will not object to it as they make their commission on the number of shares they handle. On the other hand many believe in the small-share plan because it puts the securities in possession of more people and gives a wider personal interest in the general progress of the country.

Hawaiian Commercial is now selling readily at \$117 and is held higher. Waitaitu is strong at \$98.50. Oahu Sugar holds its own. Honokaa is steady at \$18. None of the other stocks were dealt in this morning and it may be a day or two before things begin to pop again.

Inquiries for real estate continue, but the Cohen tax bill put a blanket on all real estate business from which it may not recover till the Legislature adjourns. There is not the slightest chance of Cohen's bill passing but some people who loan money refuse to believe it. The wise ones are picking up good buys here and there, believing that it is impossible for real estate to remain long at its present figure.

WAS PLEASED  
(Continued from Page 1)

We have a pretty good city, but your street pavements and the city trams are, I believe, ahead of ours. I am very much surprised and pleased with Honolulu, its climate and all.

"We of Australia are very much interested in the problem of the Orient, and I have a royal commission from the Australian Government to investigate conditions on the west coast of America with special reference to the Oriental."

"We of Australia intend to preserve the country as a white man's country, and you may depend upon it that there will be no deviation from that idea. We were all glad to see the American fleet in our waters. It made us feel better. Ours is the most exposed position of the Pacific ocean so far as proximity to the Orient is concerned. It is the firm determination of our people to lead progress if that progress must be bought with either Oriental or black labor."
